Education and Public Health Department.
MADRAS.

Sir, Through
The Director of Public Health, Madras.

Sir,

The monthly statistics for every village in the district are received and compiled in the office of the Director of Public Health, Madras. As particulars of births and deaths of each village are not available now in the District Health Office, the District Health Officer of this district feels the necessity of maintaining in his office the statistical records of each village from the year 1934 onwards on a reference to the village returns from 1934 got by him from the Director of Public Health for reference and by collecting the particulars required therefor through the Health

Inspectors and Vaccinators from May 1939.

2. The Director of Public Health has in his Ref.C.No. 13161-4 V.S.39 dated 9.11.1939 and Ref.C.No. 13161-5 V.S. 39 dated 13.12.1939 is of opinion that registers are necessary for the purpose of maintaining villagewar monthly vital statistics at the District Health Officer's office and that they will be of great use if they are compiled for each village by months for the whole year.

3. The District Health Officer states that the registers required for the purpose are not available at the Government Press and those available there are not suited for the purpose. He therefore proposes that they may be got printed locally at the approximate cost of about Rs (75/-) seventy five only.

4. A specimen form is enclosed. I request that Government may be pleased to accord necessary sanction for the local printing of the registers.
